

# FireWall: How to block SMTP port 25 in eScan Firewall?

## Steps to block SMTP port 25 in eScan Firewall -

**-Open escan protection center >> Click Firewall >> Settings**

-Select Interactive Filter

-Click Zone Rule delete all the entries

-Click Zone Rule and Select Add IP Range,exclude mail server IP Address and add the rest of the local network IP Address as trusted.

**Note:You need to create 2 rules if required.**

For Ex:If your mail server IP is 192.168.0.23

Then you need to create a rule as 192.168.0.1 to 192.168.0.22 as trusted

Another rule is 192.168.0.24 to 192.168.254.254 as trusted

-Click Local IP List and remove 192.\*.\*.\*

-Click ExpertRule Menu |Modify Firewall Rule Name "E-Mail (SMTP, POP3, IMAP) - For sending and receiving emails"

Select General | Deny Packet |Protocol as TCP|

-Selct Source IP Address as "MyNetwork" and SourcePort as "Any"

-Select Destination singel IP Address <Mentioned Mail Server IP> and destination port <singe port as 25>

**-Goto registry editor modify the following entries as given below**

**1]**

HKEY\_LOCAL\_MACHINE\SOFTWARE\MicroWorld\Conceal\Conceal Firewall\LocalIP]

"OLocalIPList"="127.\*.\*.\*"

"LocalIPList"="127.\*.\*.\*"

**Remove 192.168.\*.\* series**

**2]**

HKEY\_LOCAL\_MACHINE\SOFTWARE\MicroWorld\Conceal\Conceal Firewall\Common

DisableFWOnMissingIP = 0

Restart the machine and do check the same.

Unique solution ID: #1250
