

Device Control: It is not Scanning the USB even after EPS is enable

- 1)Check if the "Enable USB control" option is chcek marked
- 2)Check if the USB device is not added in the "Whitelist". and it is seletected as scan whitelst drive
- 3)Check if the mwavscan.com file is present
- 4)Please Check that Enabled the Gaming mode.

Unique solution ID: #1033
