eScan Anti-Virus Security for Mac: Where can I get a free trial version of the software?

Where can I get a free trial version of the software?

After you download the **eScan_Anti-Virus.dmg** file and install eScan for Mac software, you get a dialog box where you have 3 options — **Enter Key**, **Buy now**, and **Trial**. You have to click the **Trial** button for trial version. Once you enter the valid license key, click the **Enter** button. Then, it will take you to the **Registration Form** screen, where you have to fill up all the necessary details, and click the **Register** button (**e-mail id** is the mandatory field). After registration, you will receive an e-mail with product license key and evaluation period from eScan sales team.
