

eScan for Android: What do I do if I have forgotten the eScan secret code?

Open eScan Mobile/Tablet Security. Tap on "Administrator Mode" and then tap on "Recover password". This will prompt you with a message to send the Recovery key to the registered email address. Tap on "Yes". You will get a recovery key on your registered email address. You can use this key to enter eScan Administrator mode on the device and change the eScan Administrator password from the "Additional >> Change Secret Code".

Unique solution ID: #1361
