

eScan for Android: Which mobile can I use to send the Anti-theft SMS commands to the Lost/Stolen Device?

You can send the Anti-theft SMS commands from any mobile. The commands should be in proper format ie: if you want to send Wipe command to the Lost/Stolen device which had the eScan Secret code set as "0000" the command will be "Wipe:0000"(without quotes) and you will have to send the SMS to the number which is Lost/Stolen.

Considering the above example below are other Anti-theft commands that can be sent via SMS.

Scream:0000

Locate:0000

Lock:0000

Unique solution ID: #1385
