Miscellaneous: Problem While installing Printer driver when USB printer is plugged in.

PROBLEM : While installing Printer driver following error was appearing when USB printer is plugged in.

 "the specified port is unknown"

Resolution:

1. **1.   Open Registry Editor.**
2. **2.   Go to following path**

HKEY_LOCAL_MACHINE/System/CurrentControlSet/Control/Print/Monitors

Check if a subkey with the name USB Monitor exists. If not, create it, by right-clicking Monitors and selecting New > Key. Name that key ***USB Monitor***.

Now right-click in the right pane and select New > **String Value** from the menu. Enter ***Driver*** as the name. Double-click driver and enter ***usbmon.dll*** as the value.

Now restart your computer and perform the printer installation again. It should resolve the problem.
