

# eScan for Windows: ieframe.dll error while browsing

When browsing <https://localhost:10443/webmain.dll> or <http://127.0.0.1:10443>, some users may observe the following error:

res:///ieframe.dll/dnserror.htm#.

This error has been observed only in IE8.

Solution offered:- Please go to the below mentioned website

<http://support.microsoft.com/kb/923737>

run the Fix It I.e (MicrosoftFixit50195.msi) & reboot the system, only if required.

This MicrosoftFixit50195.msi will reset i.e 8 setting and wmc problem will be solved.
